Matthews Beauty Peach.

SAMPLES OF THE FRUIT WILL BE SENT TO THOSE INTERESTED
ON APPLICATION.

We introduced this remarkable peach to the trade, last season, for the first, with splendid success. There will be a good demand for it, as it has been largely advertised, having personally visited and introduced it to the principal fruit points in seven States, while it has been sold in all the Southern and most of the Eastern fruit States.

Realizing that we cannot control this peach longer than this year, we have decided to offer buds for sale for immediate or future delivery f. o. b. Huntsville, Ala.

\$5.00 Per M, or \$20.00 for 5 M.

Buds of the noted Texas seedling, "CARMAN," at same price as above.

No. 7

W. F. HEIKES, Editor and Manager.
1308-1310 Unity Building, Chicago, Ill.

Issued Monthly. Sent only to those in the trade. We do not solicit subscriptions. If you value **THE PRACTICAL NURSERYMAN**, please accept it with our compliments. Our circulation covers a list of over 2,300 selected names of customers and correspondents, made up through many years of active wholesale business. Every name represents a buyer of nursery stock, and this list contains only the names of those who buy at wholesale.

Advertisements 10c. a line agate; \$20.00 a page; one-half page \$10.00; one-fourth page \$5.00. Advertisements must be received one week before the day of publication. Advertisements for less than \$5.00 will not be accepted. Discounts: 3 times 5 per cent.; 6 times 10 per cent.; 12 times 25 per cent.

The circulation of this Journal will be confined strictly to Nurserymen, Florists and Seedsmen, and only invited advertisements of articles pertaining specially to these trades will be inserted.

New Publication Office.

THE PRACTICAL NURSERYMAN will be issued hereafter from Chicago. We trust to be able to extend its scope and usefulness from this great center of commercial industry. We count among our advertising patrons many of the leading nurserymen, and we hope for the continuance of their patronage and that others may be induced to join their ranks.

The Wooded Island Rose Garden.

The display of roses in this once famous spot of World's Fair history is this year simply grand. The earliest varieties commenced opening about June 7, and by the middle of the month the acre of ground was a blaze of beauty. The past Winter was decidedly favorable to the plants, and one of the best displays in the history of that wooded island rose garden may be noted.

The varieties are now confined to such hardy kinds as will stand the somewhat untoward condition of soil and climate here. Those particularly noted are Mrs. John Laing, a mass of pink; Paul Neyron and Anna de Diesbach, not less so; Magna Charta, fine; Madame Georges Bruant, Comtesse de Sereyne, a mass of silver-pink shade. Marshall P. Wilder is good, as is also Prince Camille de Rohan. Two beds of General Jacqueminot were a brilliant mass of its lovely color; it is a fine old rose, and easily handled here.

The beds of Mabel Morrison and Merveille de Lyon are far better than last year, especially in size of plants and number of flowers to a plant. Jean Liabaud is a good crimson-maroon, and Alfred

Colomb one of the very richest of roses. John Hopper is also very fine; Victor Verdier this year has great bushes, showing it to be one of the hardiest and most reliable of the hybrid perpetuals. Francois Treyve, a fiery red, is an excellent rose in cool weather, but it cannot stand great heat. Earl of Dufferin is a very brilliant, full, rich, velvety crimson. Louis Van Houtte, another of the velvety class, is also fine. The old Paeonia is late, but will be a brilliant mass. Grace Darling is very hardy, flower turning a purple crimson with age. Souv. Gabriel de Drevet is another of the very hardy pink class and a free bloomer. George Washington does well, and old La Reine must not be forgotten among the hardy varieties. Caroline d'Arden is a brilliant rose-pink. La France does not stand very well and looks ragged. Margaret Dickson, so fine in the World's Fair year and a year or two after, is now among the examples of remnants. Her Majesty is gone altogether, with lots of others.

The famed forcing rose, American Beauty, is of no use outdoors, which is a pity. Of the old moss roses well worth growing may be named: Salet, Blanche Moreau, Capt. John Ingraham, White Bath and the common moss. The old Maiden's Blush is also worth of note.

The hedge of Lady Washington surrounding the grounds is now all gone, and California privet has been planted in its place. George IV. is a ragged bloomer, but entirely hardy. Comtesse de Murinais, like the La Reine, should not be forgotten.

Madame Plantier is old, but no better hardy white rose exists for a mass of color.

The Winter protection used here is dry leaves—the tender varieties being also laid down before covering.—Edgar Sanders in Florists' Exchange.

A New Peach.

On the 20th of June we received from Mr. J. D. Husted samples of his new peach, No. 51, now named Admiral Dewey. We were very favorably impressed in its favor. It is yellow-fleshed, a perfect freestone, brighter in color, averaging larger and more showy than Triumph. Its season of ripening is the same as Triumph. The Triumph is a valuable peach, but here seems to be one that is better.

PEACH TREES--On Peach, Leading Varieties.

Our Peach Trees are budded on seedlings grown from Tennessee and Alabama Pits. They are free from aphid or root-knots, and have fewer borers than those from most nurseries.

We can supply beautiful medium and small-sized peach trees this year. The lands upon which our peach trees are grown produces a light, well-matured tree, with fine roots. These trees will answer well the purpose of "June Buds," and are very much better to transplant, as they will be well matured to the terminal bud, while June Buds are often tender at the tips. The little trees we offer should not be confounded with the little culls left after the larger trees have been dug and offered so cheaply by other nurseries. Our peach trees have been grown with especial reference to the Southern trade, where small sizes are mostly wanted. The Yellows and Rosette are unknown in this locality, and we have been careful not to bring in any buds from affected localities.

DORMANT**FIELD-GROWN ROSES.****OWN ROOTS.**

Grown from cuttings. Price of boxes or bales to be added. Delivered at depot at Biloxi. On orders sent in by Northern customers for Spring delivery, we will pay freight to Chicago, and hold in cold storage there until wanted. We deliver to transfer companies and the cost of drayage will follow as advance charges, or be added to the bill. The No. 1 plants will have three or more branches and will be cut back to 24 to 30 inches. The roots are very fine.

We make a grade of Roses called No. 1½. This grade will be made up of plants just under No. 1 such as do not have the required number of branches or slightly under weight and height, and makes a very nice grade for mailing.

No. 2 PLANTS OF ABOVE VARIETIES FOR TRANSPLANTING AT ONE-HALF THE PRICE OF No. 1. The tops of No. 2 plants will be cut back to 2 or 3 inches, as they are only intended for transplanting.

GRAFTS—A few varieties marked g. are grafts. When marked c. g. they are both grafts and own roots.

MARECHAL NEIL.—We have a fine stock of small plants of these, grown close together on own roots, at \$35.00 per 1000; \$4.00 per 100.

THE HUNTSVILLE WHOLESALE NURSERIES PRICE LIST.

Terms and Conditions Governing Quotations in the Price List of the Huntsville Wholesale Nurseries.

RATES.—As we send this list to the trade only, we make the difference in prices between the 10, 100 and 1000 rates very slight—simply sufficient, as a rule, to cover the difference in the expense of handling in the smaller numbers. We uniformly tie in bunches of 10, when consistent with the order, and we suggest to our customers to make their orders for varieties in multiples of 10 as far as practicable. Orders for 50 and not over 300 trees, if for not less than 10 of a variety, will be charged at the rate per hundred. Orders requiring 300 trees or more, and not less than 10 of a variety, will be filled at the lowest quoted prices. Orders for less than 10 trees of one variety, will be charged at the rate per ten.

SEASON.—Our packing and shipping season begins by the 20th of September, and continues until about the first of March.

We have great advantages to offer here in early shipments for the North in Spring. We do not accept orders for trees we do not grow, as we never buy trees to sell again. You can depend upon us for fresh dug trees. Each order is taken up separately, and not until it is wanted for shipment.

SHIPPING DIRECTIONS.—We respectfully beg our patrons to furnish us with explicit *directions as to shipping*, and the mode of conveyance by which they desire trees forwarded. When no particular directions are given, we forward according to the best of our judgment. *But in no case do we assume any responsibility as to safe delivery and condition of Trees and Plants after a proper shipment by us.*

RELEASE.—When prepayment of freight is not required, we will Release and Guarantee, and take forwarder's receipt and mail to consignee. It is left to the option of the shipper of trees over some railroads, whether he will release them or not under the clause "Value less than \$5.00 per 100 lbs." If released under this clause, the freight is less on roads governed by this classification, and we will assume it to be proper to make this release, without reference to the value of the trees, unless instructed to the contrary. This clause does not apply upon roads under some of the district classifications, and because of this confusion we will not be held responsible for any oversight to release, unless instructed by our customers. Claims for delay or loss must be made to the forwarders.

PACKAGES.—The cost of package must be added to the prices quoted in this list, as follows: Boxes 30 inches square, from 7½ to 9 feet long, as the trees may require, each \$2.50; boxes 24 inches, \$2.00; boxes 18 inches, \$1.50; bales from 25c. to 75c. each.

PACKING.—Goods will be packed in moss, and especial care taken to insure their arrival in the best condition.

ASSORTMENTS.—We do not require customers to take an assortment they do not wish, but will sell one variety alone if desired. If any substitution can be allowed, either in grade or variety, it should be so stated when making the order. As a rule we do not substitute without permission.

CAUTION.—We accept all orders upon the condition that they shall be void, should any injury befall the trees from frost, hail, storm, fire, or other causes over which we have no control.

TERMS.—Cash. When desired, we will allow 30 to 60 days from date of shipment to responsible,

prompt-paying customers. Parties with whom we have had no business transactions, will save time by sending reference, with order. We wish it expressly understood that payment is expected from the first collections made, and the time named is only intended as so many days of grace in which to make returns. To northern customers, who wish to lay in stock for Spring trade, we will ship late in Fall or early in Spring, and allow time for payment till May 15th. If shipment is required in the Fall for Spring use, a note is to be given upon receipt of the trees. We do not allow any discount for cash, but we make our prices low to command cash, or prompt returns. In orders when the time is not mentioned, 30 days is to be understood. Interest at the rate of 8 per cent. per annum must be paid on over due accounts. Should prices be changed, either higher or lower, during the season, the prices ruling at the time the order is made, are expected to stand.

FORMS OF PAYMENT.—All bills are payable at the office of the seller, and remittances should be made by drafts on New York, Chicago or St. Louis, or by money orders on some Express Company, or by postal orders. We will, however, accept checks from those of our customers who may be located at places having no banking, express or postal facilities, provided they make them in every case payable "with exchange", or add ¼ of one cent, to the amount of the bill for the cost of collection.

GRADES.—We grade very carefully, in some cases by caliper, in others by height. When graded by both caliper and height, the caliper must govern, as the height then named is only to be considered approximately. When graded by height or caliper, we include the lower number and exclude the higher. Instance: in a grade of 4 to 5 feet trees, the 4 feet trees are included, but not the 5 feet trees. If 5 feet trees are wanted, the 5 to 6 feet grade must be ordered.

GUARANTEE OF GENUINENESS.—While we exercise the greatest diligence and care to have all our Trees, etc., true to label, and hold ourselves in readiness, on proper proof, to replace all trees, etc., that may prove untrue to label, free of charge, or refund the amount paid, it is mutually understood and agreed to, between the purchaser and ourselves, that our guarantee of genuineness shall in no case make us liable for any sum greater than that originally received for said trees, etc., that shall prove untrue.

ACCEPTANCE.—Notice should be sent us by telegraph, at our expense, if there is any cause of complaint, or should the trees be refused, stating reasons. Claims for deduction, from whatever cause, will receive consideration only when made promptly upon the receipt of the trees. If trees show any signs of shrivelling upon arrival, they can usually be restored by being thoroughly watered and buried entirely under the ground for two or three days. Should there be any frost in the trees upon arrival, they should not be removed from the box until the frost is all out. The box should be placed in the cellar or protected in some other way. The presence of frost in the boxes is not to be considered an evidence of bad condition, as we pack to secure the trees against damage, if the frost is allowed to come out in the natural way. Goods will be considered accepted if removed from the boxes in which they are packed, without notice of complaint to us and without our orders for their disposition.

NURSERYMEN'S REQUISITES.

We have an expert buyer in our office who has charge of this department, and we intend to give our customers and correspondents the advantage of our location in Chicago in supplying them anything required by nurserymen or florists. We buy at wholesale prices, and purpose to divide profits with our customers. Among the many things we have especial facilities for supplying here we enumerate the following: Budding and Pruning Knives, All-Purpose Knives and Pruning Shears, Field and Garden Tools, Hoes, Spades, Plows, Cultivators, Spraying Apparatus, Lawn Mowers, Insecticides, Moss, baled in wire or burlap, by the ton or bale, Burlap, Wool Twine, Hay Rope, Raffia, Grafting Thread, Thread for tying Buds, Fertilizers, Wagons, Buggies, Bicycles, etc.

Delivered to express or freight office in Chicago, unless otherwise noted. If sent by mail, cost of postage will be added. Terms, cash or 30 days.
